There are is a lot of poll^ution .

Pollution or contamination

pollution: the introduction of **harmful substances** or products into the environment

contamination: The presence of extraneous, especially infectious, material that renders a substance or preparation impure or harmful

Contamination does not necessarily have to be introduction of harmful substances or products into the environment.

For example, you can say:

The lab is contaminated with **radioactive substance**.

But you wouldn't say:

The lab is polluted with radioactive substance.

Basic

I don't know what it is.
