| Pollution or contamination |
|---|
| pollution: the introduction of harmful substances or products into the environment |
| contamination: The presence of extraneous, especially infectious, material that renders a substance or preparation impure or harmful |
| Contamination does not necessarily have to be introduction of harmful substances or products into the environment. |
| For example, you can say: The lab is contaminated with radioactive substance. |
| But you wouldn't say: The lab is polluted with radioactive substance. |
