| A laptop (portatil) | | |
| To | someone (doblar) | |
| lap | (una vuelta) | |

| | | |
|----|--|------------------------------------|
| To | stop ban deter prevent prohibit forbid | + (object) from verb+ing something |
| | | + (object) from verb+ing |

to avoid verb+ing +object.

While similar, the verbs **avoid** and **prevent** are not the same idea. To **avoid** is to not go near something that is currently happening. To **prevent** is to stop something from existing or happening altogether.

- prevent** = to stop something from happening or someone from doing something:
- avoid** = to stay away from someone or something.

However, if you *avoid doing* something, this can be more or less synonymous with *preventing* it. Example:

Most workplace accidents can be **avoided/prevented** with proper safety training.

Think of this use of *avoid* as metaphorically "dodging" a situation. If you can *avoid* the conditions where something can happen (or avoid being in that situation at all) you have effectively *prevented* it from happening
