existentialism

a philosophical theory or approach which emphasizes the existence of the individual person as a free and responsible agent determining their own development through acts of the will.

**Existentialism** is a philosophical way of talking. It sees humans, with will and consciousness, as being in a world of objects which do not have those qualities. The fact that humans are conscious of their mortality, and must make decisions about their life is what **existentialism** is all about.

...and **oil** that jazz (all that stuff).
